

End of Semester Student Interview

This short 5-minute interview will help your student practice answering questions about their job/ESOL class, and also help us update their student record with any changes we might have missed during the semester.

Note: DLC is Department, Lab, or Center. Most of the service employees in the ESOL program are in Facilities or Housing & Residential Services

- ▶ *To practice **listening & speaking**, read the questions out loud and make a note of your student's answers. Wait 5 seconds after each answer in case the student is still thinking about more info to add.*
- ▶ *To practice **reading & writing**, print this PDF for the student and have them read the questions and write down their answers.*
