Research reported in this publication was supported by the National Institutes of Health (GM-58160 and GM-122483).	National Institutes of Health (Grants GM-58160 and GM-122483) [also acceptable: National Institutes of Health (Grants GM-58160, GM-122483)]
The Varian 500 MHz instrument used for portions of this work was supported by the National Science Foundation (Grant CHE 9808061).	[Do not record; this grant supported equipment/facilities]
We thank Richard Liu (MIT), Dr. Andy Thomas (MIT), and Dr. Christine Nguyen (MIT) for their assistance with the preparation of this article.	[Do not record; not a named or numbered grant]
This work was supported by the Bill and Melinda Gates Foundation (“Medicines for All” Initiative) and the NIH under the Ruth L. Kirschstein National Research Service Award F32GM120852 from the NIGMS (A.R.L.)	NIGMS (Award F32GM120852)
RH thanks LASERLAB-EUROPE for support of this research (Grants EUH2020-RIP-654148 and EC’s-SPF-284464) as well as European Regional Development Fund and the Polish state budget within the framework of the Carpathian Regional Operational Programme (RPPK.01.03.00-18-001/10) through the funding of the Center for Innovation and Transfer of Natural Science and Engineering Knowledge of the University of Rzeszow	[Do not record; R.H. is not an MIT affiliate]
RWF is grateful to the US National Science Foundation (Grant CHE-1361865)	National Science Foundation (Grant CHE-1361865) [R.W.F. is an MIT affiliate]
The experimental work was supported by the U.S. Department of Energy, Office of Science, Office of Basic Energy Sciences (DE-SC0018235).	U.S. Department of Energy, Office of Basic Energy Sciences (Grant DE-SC0018235) [delete intervening body]
Computational work used the Extreme Science and Engineering Discovery	[Do not record--grant supports laboratory, equipment, etc.]

Environment (XSEDE), which is supported by	
This work was supported by NIH/NINDS award 1 R01 NS085880 (M. Heiman), an award from the JPB Foundation (M. Heiman), an award from the Bev Hartig Huntington's Disease Foundation (M. Heiman), a Fay/Frank Seed Award from the Brain Research Foundation (M. Heiman), the Jephtha H. and Emily V. Wade Award (M. Heiman)	NIH/NINDS (Award 1 R01 NS085880) [do not record JPB Foundation or Bev Hartig...--awards not named/numbered]
NIH awards R01 AG058002, U01 NS110453, UG3 NS115064 (M.K.)	NIH (Awards R01 AG058002, U01 NS110453, UG3 NS115064)
MPK, BAJ, and DAL are supported by NIH Grant U54-CA217377.	NIH (Grant U54-CA217377) [2 of 3 named researchers are MIT affiliates]
We would like to thank the Simons Foundation, NSF, DOE, and NASA for funding the Microbial Diversity Summer course, as well as Promega, Thermo Fisher Scientific, Spectral Evolution, and MBL's Marine Resources Center for providing reagents and equipment used in this work.	[Do not record--"reagents and equipment"]
K.R.M. was supported by NSF Graduate Research Fellowship	NSF (Award DGE-1122374)
