

## COMMUNITY WINDOW

*The following content illustrates information that might be included in the Community window. It is not a comprehensive list of suggestions. We won't know how much space the window will have for text until the concept is resolved in design—it may allow for a jaunty blurb or only a few words of explanation. When we get the go-ahead from the NEO client team, we will develop this concept further with Wing. The text below is just for illustrative purposes.*

---

### Fun

#### **Big Screen**

Many campus organizations screen films—from obscure independent gems to major releases. The leading campus film series is run by the MIT Lecture Series Committee (LSC).

<http://lsc.mit.edu/>

#### **F.A.T. Chain Reaction**

Every Friday after Thanksgiving, tinkerers—including MIT staff and their families—bring their contraptions to campus, connect them, and set off one mega chain reaction.

<http://web.mit.edu/museum/programs/fat.html>

#### **Hacks**

At MIT, hacks means harmless but elaborate pranks...like a campus police car on MIT's iconic dome.

<http://hacks.mit.edu/Hacks/>

#### **Ice Cream**

Gourmet coffee, salad bars, sushi—it's all available on or around the MIT campus. Hint: Toscanini's ice cream is the stuff of legend.

<http://web.mit.edu/visit/eat.html>

#### **Picasso**

In MIT's exhibition spaces you'll discover the world's largest collection of holograms, sculptures by Pablo Picasso, and great works of new, emerging, and venerable artists.

<http://web.mit.edu/arts/see/galleries.html>

#### **Sailing**

Lunch-hour sailing? The MIT Sailing Pavilion offers lessons on the Charles River and sailboat rental for experienced sailors.

<http://sailing.mit.edu/>

## **Ultimate Frisbee**

Or maybe water polo, snowboarding, rugby, or skydiving? Just a few of the sports and recreation clubs on campus. If you don't see one, start one!

<http://web.mit.edu/life/category/athleticssports.html>

## **Talent**

MIT Artists Beyond the Desk showcases the artistic talent of MIT staff through exhibitions and concerts.

<http://web.mit.edu/abd/about.html>

## **Tickets**

<http://web.mit.edu/mitac/>

Broadway plays, flower shows, sleigh rides, white water rafting trips.

MITAC offers some of the hottest tickets in town—often at a discount.

# **Jargon**

## **ABCs**

### **MIT Acronym Guide**

<https://wikis.mit.edu/confluence/display/ACRONYMS/Acronyms+Home>

Bewildered by the barrage of abbreviations, lingo, and jargon you hear on campus? Learn your MIT ABCs with this handy guide to Institute lingo.

## **Athena**

MIT's own computing environment. Athena is the virtual world to which all MIT computers are connected.

<http://web.mit.edu/olh/>

## **D-Space**

An online library of MIT research that captures, preserves, and shares the Institute's intellectual output.

<http://dspace.mit.edu/>

## **eCAT**

Online supply channel that allows you to order directly from outside vendors who partner with MIT and often offer discount pricing.

<http://web.mit.edu/ecat/>

## **IAP**

### **Independent Activities Period**

Sports management, Soviet poets, soufflé-making. Every January, this learning extravaganza offers the MIT community hundreds of serious and whimsical courses, experiences, and events.

<http://web.mit.edu/iap/>

## **IHTFP**

A generally irreverent Institute expression going back generations that has spawned infinite variations from I Have the Finest Professors to I Hate this Foolish Place.  
<http://hacks.mit.edu/Hacks/misc/faq.html>

## **IS&T**

### **Information Services and Technology**

MIT's resident computing experts help keep computers and channels of communication flowing. They offer MIT staff a wide range of resources and services.  
<http://web.mit.edu/ist/index.html>

## **SAP**

### **Systems Applications and Products**

Online financial and administrative tools that unify and standardize most of MIT's official paperwork.  
<http://web.mit.edu/sapr3/docs/webdocs/>

## **UROP**

### **Undergraduate Research Opportunities Program**

Through UROP, students have the chance to work on leading-edge research across campus. UROPs may be paid or voluntary. Many offer academic credit.

# News

## Events

What's happening at MIT today? This online calendar will tell you who is speaking, performing, or gathering where and when.

<http://events.mit.edu/>

## MIT News

The latest news on campus updated online daily.

<http://web.mit.edu/newsoffice/>

## MIT Research News

Breakthroughs emerging from laboratories across campus.

<http://web.mit.edu/newsoffice/research.html>

## MIT Video

A sort of MIT YouTube. If it happened at MIT and was caught on camera, look for it here in this archive of official—and not so official—video.

<http://watch.mit.edu>

## Tech Talk

MIT's official weekly newspaper will keep you up to date...and the classifieds section is a great place to sell that old bicycle.

<http://web.mit.edu/newsoffice/techtalk-info.html>

## The Tech

MIT's newspaper written by students for students, but enjoyed by all.

<http://www-tech.mit.edu/>

## Technology Review

The oldest technology magazine in the world (est. 1899)—and among the most read and respected—*Technology Review* showcases and analyzes emerging technologies.

<http://www.techreview.com/>
