*How Materials Scientists
are Shaping the Future***

Professor Yoel Fink

Associate Professor of Materials Science

Department of Materials Science and Engineering, MIT

MacVicar Fellow

<http://dmse.mit.edu/faculty/faculty/fink/>

The Wulff Lecture is an introductory, general-audience, entertaining lecture which serves to educate, inspire, and encourage MIT undergraduates to take up study in the field of materials science and engineering and related fields. The entire MIT community is invited to attend. The Wulff Lecture honors the late Professor John Wulff, a skilled, provocative, and entertaining teacher who inaugurated a new approach to teaching the popular freshman subject: 3.091 Introduction to Solid State Chemistry.
