

UserSchedulingProxy

Interface description for User Scheduling Service (USS).

The following operations are supported. For a formal definition, please review the [Service Description](#).

- [AddCredentialSet](#)
Add a credential set.
- [AddExperimentInfo](#)
Add information about an experiment that will have its users managed by the service.
- [AddLSSIInfo](#)
Add information of a particular lab side scheduling server identified by IssID.
- [ListReservations](#)
- [ModifyCredentialSet](#)
Modify a credential set.
- [ModifyExperimentInfo](#)
Modify information of a particular experiment
- [ModifyLSSIInfo](#)
Modify information of a particular lab side scheduling server identified by IssID
- [RedeemReservation](#)
Returns an existing reservation for the current time for a particular user to execute a particular experiment, if it exists. This does not create the AllowExperiment ticket.
- [RemoveCredentialSet](#)
Remove a credential set
- [RemoveExperimentInfo](#)
Remove a particular experiment
- [RemoveLSSIInfo](#)
Remove information of a particular lab side scheduling server identified by IssID
- [RevokeReservation](#)
Remove all the reservation for a lab server covered by the revocation time. Mail is sent to each of the owners of the removed reservations.
