IS&T Student Advisory Board Forum

The Information Services & Technology (IS&T) Student Advisory Board has been created to provide greater student input into IS&T's services and policies, including such topics as:

• Wireless Resources on MIT Campus

• Support for Student/Faculty IT Initiatives

• Management and Security of Sensitive Data

• Network Security and Integrity

• Software Packages Available for Students

• Marketing of Available Resources

    (such as cellular phone discounts)

IS&T Student Advisory Board Forum

- Overview of ISTAB

  – (Greg Anderson)

    - Student Members:

      – Charu Varadharajan G (GSC)

      – Dan Stratila G (Sidney-Pacific IT)

      – Harel Williams U (UA)

      – Hector Hernandez G (GSC)

      – Jennifer Tu U (SIPB)

      – Michael Folkert G (GSC)

      – Sean Deignan G (RCC)

      – Shirley Fung U (UA)

IS&T Student Advisory Board Forum

- ## ISTAB Initiatives/Work Areas
  - Understanding the MIT student culture and IT needs/relationships
  - Academic Computing/Stellar
  - Electronic information coordination
  - Telephony offerings for students
  - Wireless strategy for outside spaces
  - Icampus and other student development projects
  - Software services from IS&T
  - Off-Campus (Grad/FSILG) Internet access
  - Printing at MIT
  - Mobile Devices
  - *Many, many more…*

IS&T Student Advisory Board Forum

- ## Microsoft XP Campus Agreement
  - Eligibility
    - Who is eligible for the MSCA?
      - MIT Faculty, Staff, and Undergraduates for use on Institute-owned equipment. A Professor Emeriti is noted as a faculty member.
        - » Note: MIT Affiliates who are not MIT students or staff members are not licensed to use the software made available through the Campus agreement.

IS&T Student Advisory Board Forum

- ## Microsoft XP Campus Agreement
  - Do I get home use rights under the Campus Agreement?
    - You have the same use rights for an Institute machine you use at home as you would for one you use at MIT. Additionally, you may install the software on one personally owned machine provided that the software will be used for MIT purposes only. All other personal workstations should be upgraded via a personal purchase at GovConnection.

IS&T Student Advisory Board Forum

- ## Microsoft XP Campus Agreement
  - Why are graduate students not eligible?
    - Graduate Student participation is a department-by-department decision. EECS and Sloan School graduate students may acquire their liaisons. Other departments may join the program by sending email to: liaison-opt@mit.edu.
    - Graduate students with Institute-owned equipment may acquire the software from their Software Liaison. Go to the contacts page to find the liaison for your department.

IS&T Student Advisory Board Forum

- Residential technology
  - (Oliver Thomas)
    - A small number of technology experiments in the dorms this spring
    - Participate in the workshops!
