

User Experience Design

What We Do & How We Do It

*Presented by the User Experience Designers
in Systems Engineering*

Nancy Gift Bill McAvinney Laura Watts

Why User Experience Design?

Save Money

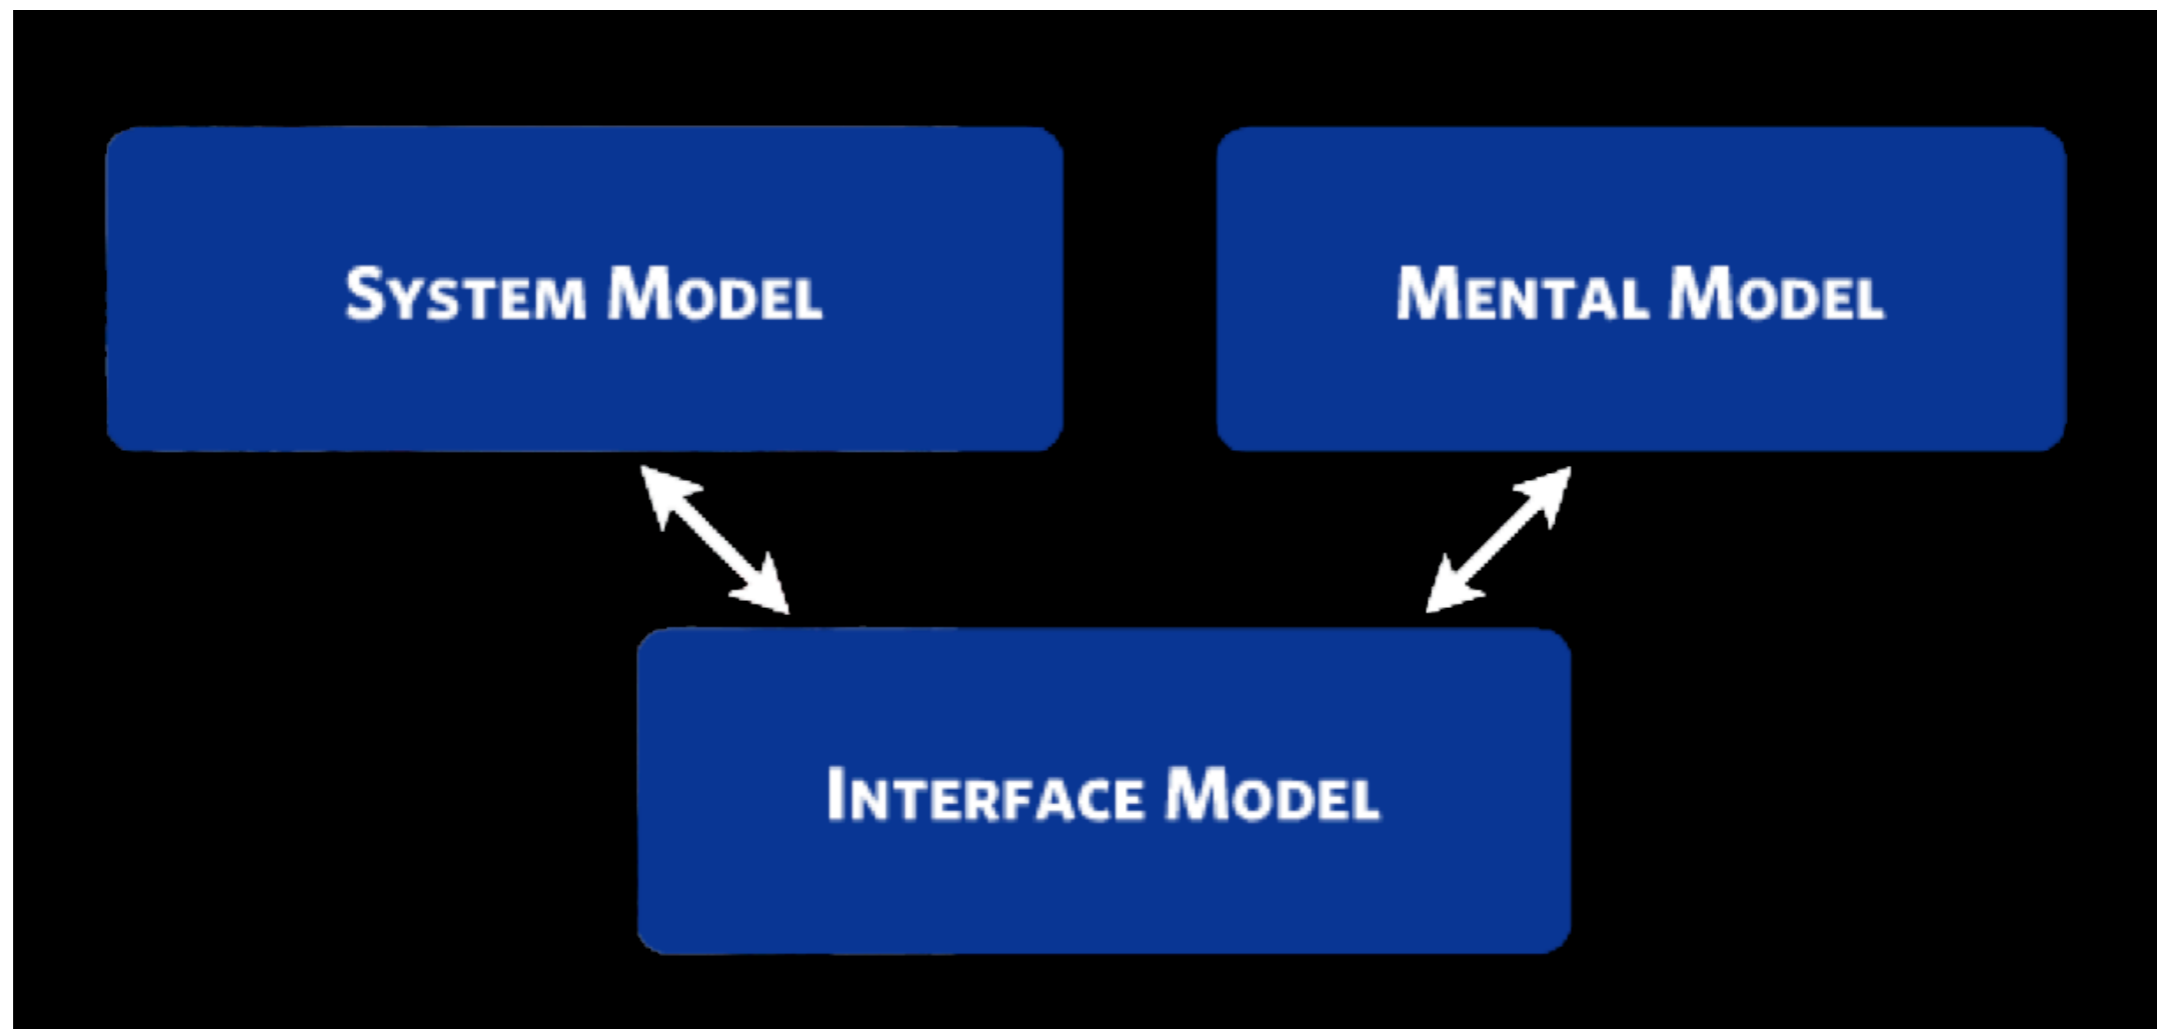

Save Money

20% OFF!

Benefits

- * Increased Productivity
- * Decreased Input Errors
- * Higher Adoption Rates
- * Reduced Development Costs
- * Fewer Customer Service Calls
- * Greater Client Satisfaction

What do UX Designers do?

Mental Model: What is it?

ECCLLESIASTI-
CAL CENSURES COL-
LECTION, ESSENTIAL AND
USEFUL, ESPECIALLY TO
ALL CLERGY

Mental Model: What is it?

Web Expertise

* Date	* Time In	* Time Out	* Lot

			<input type="text"/>
			<input type="text"/>
			<input type="text"/>

7 AM to 4 PM on the hour are the possibilities

Estimating UX Design Value

INDIVIDUAL BENEFIT CALCULATIONS					
Increased Productivity					
# Users X	# Days X	# Transactions X	Hours Saved per Transaction X	Hourly Rate =	
400	100	1	0.008333	\$60	\$20,000.00
Decreased Errors					
# Users X	# Days X	# Eliminated Errors/user/day	Hours Saved per Error X	Hourly Rate =	
400	100	0.1	0.083333	\$60	\$20,000.00
Decreased Training					
# Users X	per User X	Hourly Rate =			
400	0	\$60			\$0.00
Decreased Late Design Changes					
Cost of Early Changes:					
# Changes X	Hours per Change X	Hourly Rate =			
5	8	\$66			\$2,640.00
Cost of Late Changes:					
Cost of Early Changes X	Ratio of Late to Early Changes =				
\$2,640.00	4				\$10,560.00
Savings of Early Changes Relative to Late Changes:					
Cost of Late Changes -	Cost of Early Changes =				
\$10,560.00	\$2,640.00				\$7,920.00

UX Design Savings

Increased Productivity - Once a year use	\$1-\$5/user/year
Increased Productivity - Frequent use	\$.10-\$.50/transaction/year
Decreased Input Errors	\$.03-\$.15/transaction/year
Reduced Development Costs	≈\$1,500/change
Fewer Customer Service Calls	\$.10-\$.50/transaction/year

Order Recycling and Trash Services

Work Description

What do you want?

Qty.	Products/Services	Qty.	Products/Services
<input type="text"/>	Recycling Bins	<input type="text"/>	Computers, Monitors, etc. Disposed of
<input type="text"/>	90 Gallon Totes	<input type="text"/>	Large Items, Furniture Disposed of
<input type="text"/>	Boxes of Paper Shredded		

	Products/Services
<input type="checkbox"/>	Trash/Recycling Pick-up
<input type="checkbox"/>	Trash Cart

C & G Example: Work Order

Work Order Receipt

- ✓ Work Order 5000076 successfully created.
- ✓ A confirmation e-mail has been sent to the contact e-mail address(es).

PDF

Work Description

Order Number	5000076	Creation Date	4/15/11
Status	New Order	Estimate Requested	No
Team	Work Reception Grp		
Where	W92-210		

Work Details

Trash

--- Services Ordered ---

3 Recycling Bins

1 90 Gallon Totes

3 Boxes of Paper Shredded

2 Computers, Monitors, etc. Disposed of

1 Large Items, Furniture Disposed of

Trash/Recycling Pick-up

List of Large Items to be Disposed of

Tall filing cabinet

When? (for 90 gallon totes)

From 04/25/2011 To 04/29/2011

Change Example

2 Dispose of Computer Monitors
 Dispose of Furniture or Other Large Items

Estimate Needed

* Size of Job

* Location

* Build

< \$500

\$500-\$2,500

User Experience Design

When to engage & how long will it take?

“Design is not just what it
looks like and feels like.
Design is how it works.”

Steve Jobs

When should you engage User Experience in the process?

How much time will User Experience add to the process timeline?

**How much time will User
Experience add to the
process timeline?**

It depends on...

- * Project Complexity
- * Timeline
- * Resources
- * Budget
- * Technology

**When should you engage User
Experience in the process?**

Throughout the Entire Process

- * Beginning
- * Middle &
- * End

“I never design a building before I’ve seen the site and met the people who will be using it.”

Frank Lloyd Wright

Beginning: User Research

Identify:

- * Users
- * Tasks / Goals
- * Workflows
- * Pain Points

(BA & UX opposite sides of same coin)

Beginning: User Research

Analyze:

- * Current workflows
- * New workflows
- * Open source & 3rd Party applications

*Observe, Question,
Extrapolate, Synthesize
& Understand*

“Supposing
is good, but
finding out
is better.”

Samuel Clemens

Beginning: User Research

Verify that Business Goals and User Goals mesh.

Prioritize product features -- need to have vs. nice to have.

Define concrete and measurable success metrics.

Middle: Iterative Design Process

- * Layouts & Visual Elements
- * Workflow Design
- * Interaction Design
- * Text & Labeling
- * Prototyping (Lo & Hi-Fidelity)
- * Information Architecture

Middle: Workflows

- * Facilities
- * RAFT
- * Touchstone

Middle: Prototypes

Online Registration

- * Lo-Fidelity: Paper
- * Hi-Fidelity: HTML/CSS

MIT ID: 991234567
Reg Type: Regular

Year: 3
Degree: SB

Major: 10 B
Advisor: [Robert Principato](#)

2nd Major: 6
Advisor: [Lakshmi Thanga-Raja](#)

3rd Major: 21
Advisor: [Richard Burton](#)

Minor in: History

REGISTRATION STATUS:

✓ Registration -> Advisor Approval -> [Submit Registration](#)

MESSAGES:

- You have a credit limit of 60 Units
- You currently have an incomplete in 1.035 in Mechanics of Structures and Soils

INSTRUCTIONS:

Subjects may have Pre-requisites and Co-requisites. It is your responsibility to confirm that you have met them and that you are qualified to take the class.

HASS-D subject that you have not gotten through the HASS-D lottery cannot be added to your registration.

If you do not register for enough credits to be full-time it may impact your financial aid.

You are not considered registered until your advisor has approved you selections and you have completed the submit process.

Welcome Seth Winerman!

REGISTRATION STATUS

INSTRUCTIONS

1. View and edit your subject selections. As you modify your choices, bear in mind that if you do not register as a full-time student your financial aid, loan deferments, compliance with immigration regulations and eligibility for varsity athletics may be affected. Important information about full-time status is available [here](#).
2. Meet with your academic advisor and make any final adjustments to your subject selections. Once your academic advisor has approved your selections, no further edits may be made.
3. After you have obtained your academic advisor's approval, clear any registration holds and complete the registration process by reviewing your address and contact information, and agreeing to the terms of registration.
4. Note that failure to complete the registration process by the specified deadline may result in late fees and loss of student status. Visit the [Academic Calendar](#) for dates that are pertinent to this registration period.
5. After completing the registration process, you may change your registration via the [Add/Drop/Change process](#).

User Stories

Personas

Dean & Associate Dean
Front-of-class Lecturer
Team Researcher
Project Facilitator
Advisor

Scott Learned
Professor, CSAIL

- Uses Power Point, Email, Online syllabus, online class handouts, Stellar
- IS&T site visit trigger:
- May be interested in working with IS&T to develop online course content
- Software: MatLab, Adobe Illustrator, calendar, email, MS Office
- Scott forwards his email to the lab server where he has much more disk space. "I trust it more."
- "For all solved [IT] problems there should be a web-based description of the problem and its resolution. People would be able to solve their own problems."
- "I've given up on the Help Desk."
- "Needs to have a quicker response time. [There should be] a separate Help Desk just for Faculty."

Notes: Faculty

- May have grad students or admin assistants to take care of them
- Might need service or resources for
 - research or to
 - run a class
