Our Name

- Automatically Generated
- Totally Awesome
- Started out with 4 people, but we DEMOLISHED two of them

Strategy

- ~~Move fast and break things~~ DEMOLITION EXPRESS!
- Remove vulnerabilities in stupidest way possible
- Because of the scoring algorithm, defense >> offense

Example

```
get '/order' do
  user = User.find_by_name_and_password(params['name'], params['password'])
  if user
    ret = ''
    if user.admin
      User.all.each do |u|
        ret += '<b>Name:</b> ' + u.name + '<br/><b>Credit Card:</b> <span
id="wootdisplayccn">' + u.ccn + '</span><br/>'
        end
      end
    else
      ret += '<b>Name:</b> <span id="wootName">' + user.name + '</span><br/
><b>Credit Card:</b> <span id="wootdisplayccn">' + user.ccn + '</span><br/>'
      end
    end
  end
  ret += ''
else
  ''
end
end
```

Example

```
