

# Tr0ub4dors

We don't feel like introducing ourselves, so  
here's a cat

# What we did

1. Ate pizza
2. Freaked out
3. Freaked others out
4. Hoped no one noticed we existed
5. ???
6. Profit!

(7. Made this powerpoint)

logs.logs.logs.logs. trying to patch things whilst flailing arms and being distracted by the cats,  
htaccess for everything.

# What we liked

1. Pizza
2. Free caffeine
3. T-shirts
4. SILENCE
5. Pretending we didn't exist
6. Squeeing over evilly cute cat memes
7. Vastly increasing the female population
8. Golden abacus

(Also Ocaml, htaccess, all the different languages, round 4 was pretty clever if also really evil)

# What we didn't like

1. Techno
2. We got t-shirts only at the end
3. Graderbots lagging
4. Graderbots lagging
5. Graderbots lagging
6. Suddenly existing again and getting pwned
7. Scoreboard going away

(The scoring at the end seemed weird, and the music videos made it hard to think, not seeing sunlight this weekend)
