

March 7th

Human Practices

big idea
* what can synbio bring to alz treatment?

Short film?

interview staff, patients

last year's winning team (Calgary)

started w/ local problems/stories

how they personally addressed the issue

→ technically perspective came next

Ken O. (?) in political science

judge for iGem human practices

science museum exhibit for synbio

Ron was contacted by someone who help could

Alzheimer's project

contact
1. doctor's/
patients/
family

2. foundations
~~that~~ that
raise money
for alzhei.

3. mcgovern
and rese-
archers

4. nanomaterials
that pass
blood-brain
barrier (in
Koch, Paula
Hammerdel (?))

general syn. bio

1. museum of science

2. MIT museum

3. teaching (Natalie Kuidell)

Sangeeta. helped iGem last year
can detect fibrosis in urine
